C4IS and ISTAR Business Development Manager (£70000 – £80000 basic plus benefits)

Description

Our client is a leading supplier of advanced electronic communications, information systems and signals intelligence technology to the defence and security sectors.

Our client utilises an unparalleled and ever-expanding international network of specialist technology providers, combined with its own bespoke design, engineering and integration skills, to deliver and support a diverse portfolio of C4IS and ISTAR capabilities that transform its customers' ability to deliver effective operations.

The successful candidate has to be based in the UK as the majority of our clients business is within the UK MOD. The ideal candidate will have existing experience and contacts within the UK MOD. The Business Development Manager is accountable for the effective sale of specifically assigned products and general company services.
