## Filled by Sundridge Search – VACANCY CLOSED – x3 Power Supplies Sales Development Managers (£40000 – £70000 basic plus benefits)

### Description

Our client offer custom, cost-effective power solutions to help their customers fulfil their project. With a wealth of technology expertise, our client can provide expert technical support and guidance at every stage of their customers design.

Working closely with world-leading suppliers, our client act as a design partner, working with customers on their design challenges and helping their customers make informed product decisions that are most suitable for their application.

Our clients team of technical experts are able to guide customers through the design process, product options and selection, technology integration and manufacturing, including prototyping and production samples.

Our client is looking for a UK Power Sales Development Manager to sell power supplies across the entire UK. The prospective candidate can be based anywhere in the UK and their responsibility is to drive and develop the Power Group business for sustainable and profitable sales aligned to strategic objectives with particular emphasis on growth.

### Responsibilities

Sales and Market development

- Working with the sales teams in developing new, profitable business within the identified accounts and new targeted businesses
- Work with the appropriate sales groups to identify the growth markets within the UK where the portfolio has a good fit currently and new emergent technologies.
- Identify (and where appropriate develop) the product offer for the assigned franchises for that market
- Identify the target customer base within the market (new and existing)
- Provide technical product support to both internal & field based sales staff
- Assist the relevant sales team/ resources in specific projects to grow market share within the communications division
- Work with all key franchises within the division to provide a consultative approach to selling and delivering solutions
- Identify new business opportunities across the complete technologies offered by the group for related markets / and or customers-X sell leverage

- 
- Work with Group Marketing to develop marketing programmes and content to maximise the market opportunities
  - Drive lead generation activities from identification to conversion
  - Web evangelist for product and market areas
-
