Biogas Pumps Sales Engineer (£50000 – £60000 basic plus benefits)

Description

Our client is a leading manufacturer and exporter of Positive Displacement Pumps ranked amongst Top 10 manufacturers of Progressive Cavity Pumps / Eccentric Screw Pumps. The Company's operations are spread over five continents with facilities in India, UK, USA, Australia and South Africa. Our client is a public listed entity in India with Global Headquarters in India. The Company is currently celebrating its 50 year of successful existence.

The Company established a Sales & Marketing office in the UK over 16 years back along with a warehouse to service the large UK & European market. UK operations have been highly successful in terms of establishing our client as a high quality pump supplier with strong brand acceptability both in UK & European markets (Germany, Norway, Sweden, Belgium, Spain, Italy, Eastern Europe, etc.) Their UK entity has a highly energetic and qualified team, many of which have their service spanning more than 10 years in the Organization.

In order to enhance their footprint in continental Europe, last year the company started the operations in Germany with a warehouse facility and has built a dedicated team.

We are looking for a candidate based in England capable of establishing our client as a dominant player in the field of PD pumps and establishing them as a major player in the field of PC Pumps & retrofit business.

The successful candidate will have tremendous opportunity for career growth and will be benefitted with the growth of business vertical as being planned.

Responsibilities

- Developing new business in England which is a very large market attaining year on year targets – target for 1st 3 years will be set out, which will be a mix existing customers and larger portion will come new customers (mainly new business development)
- Visit key customers and prospects to personally build relationships, explore opportunities, and proactively solicit enquiries and orders
- Penetrate all major sectors in the territory to develop customers through the spectrum of industries. Increase OEM base in the territory
- Perform all key activities relating to Sales & Marketing for the target market such as quotation, pricing, margins.
- Generate and monitor all Sales leads.
- Track the upcoming projects in the territory and keep close watch at the contractors level. Make presentations to the consultants for introducing products and getting the brand specified.
- Capable of handling and growing Business quite independently which involves strengthening dealer network
