## Filled by Sundridge Search – VACANCY CLOSED – Water & Wastewater Pumps Sales Engineer (£50000 – £60000 basic plus benefits)

### Description

Our client is a leading manufacturer and exporter of Positive Displacement Pumps ranked amongst Top 10 manufacturers of Progressive Cavity Pumps / Eccentric Screw Pumps. The Company's operations are spread over five continents with facilities in India, UK, USA, Australia and South Africa. Our client is a public listed entity in India with Global Headquarters in India. The Company is currently celebrating its 50 year of successful existence.

The Company established a Sales & Marketing office in the UK over 16 years back along with a warehouse to service the large UK & European market. UK operations have been highly successful in terms of establishing our client as a high quality pump supplier with strong brand acceptability both in UK & European markets (Germany, Norway, Sweden, Belgium, Spain, Italy, Eastern Europe, etc.) Their UK entity has a highly energetic and qualified team, many of which have their service spanning more than 10 years in the Organization.

In order to enhance their footprint in continental Europe, last year the company started the operations in Germany with a warehouse facility and has built a dedicated team.

Our client are looking for a candidate based in England capable of leading the companies entry into the large wastewater sector/utilities involving framework agreements (to qualify for all upcoming frameworks).

The successful candidate will have tremendous opportunity for career growth and will be benefitted with the growth of business vertical as being planned.
